

## HI-TEC CONCEALED CISTERN FRAME

### KOLLEKTION HI-TECH

PRODUKTCODE:

K97-255

### Produktbeschreibung

The mechanical flush-mounted HI-TEC toilet frame conceals toilet connections to save the usable bathroom space and make interiors visually attractive. This model is made of steel and plastic and is equipped with a water inlet on the cistern bottom or side plus a downwards or sideways adjustable outlet elbow. Such features as the economical 2/4, 3/5 and 3/6 l flushing system or innovative valve design decrease utilities consumption costs. The easy-to-install frame matches BLICK, TEAR and CUBE flush buttons. Galvanised mounting brackets protect against corrosion and facilitate installation on uneven surfaces and bathroom corners. This model comes with outflow and inlet elbow caps and a complete mounting set including a metal-plaited rubber hose, angular valve and brass connecting sleeve.

### Technische Daten

Breite	42,5 cm
Brutto-gewicht	12 kg
Einbauart	Dry montage
Farbe	Blue
Funktionsweise des systems	Mechanical
Garantie für den behälter	10
Garantie für den rahmen	15
