

STERO FLUSH BUTTON RED GLASS

KOLLEKTION STERO

PRODUKTCODE:

K97-372

Produktbeschreibung

The STERO flush button is distinguished by an interesting design. Rectangular flush plate is made of black glass. Slightly concave buttons with chrom gloss finish give it an exceptionally elegant appearance. An additional decorative accent is a delicate horizontal line along the entire flush plate. This choice of colors gives the possibility of a perfect match with universal glass borders from the CERSANIT offer. This system operates dual mechanical flushing systems to reduce water consumption. It can be used with HI-TEC and LINK WC frames.

Technische Daten

Antibakterielle beschichtung	No
Breite	23,9 cm
Brutto-gewicht	0,802 kg
Druckknopf passt zu	Hi-tec, link
Farbe	Black
Funktionsweise des systems	Mechanical
Garantie	3
Höhe	16 cm
Material/kunststoff	Glass, Plastic
Möglichkeiten der oberflächenbündigen montage	No
System-funktionsweise	Mechanical
Tiefe	1,2 cm
